A diagram of a 1D chain with alternating sites and interactions. The chain consists of 12 sites. Sites 1, 3, 5, 7, 9, and 11 are represented by circles containing a vertical line with a dot in the center. Sites 2, 4, 6, 8, 10, and 12 are represented by circles containing a vertical line with a dot and a tilde symbol (~) above it. Horizontal lines connect adjacent sites, with a crossbar on each line. Vertical lines also connect sites 1-2, 3-4, 5-6, 7-8, 9-10, and 11-12, with a crossbar on each line.

HOHGHOHOHOHOHO

The diagram illustrates a sequence of nodes connected by directed edges. The nodes are arranged in a horizontal line and are labeled as follows from left to right: H (outside a circle), O (inside a circle), H (outside a circle), G (outside a circle), H (outside a circle), O (inside a circle), H (outside a circle), O (inside a circle), G (outside a circle), H (outside a circle), and O (inside a circle). Directed edges connect the nodes in sequence, with some edges marked with a small 'x'.

The image displays 15 mathematical diagrams, each consisting of a horizontal sequence of circles and vertical lines. The circles contain a vertical line with a cross-like symbol. The vertical lines are of varying lengths and are sometimes accompanied by small horizontal bars or dots. The diagrams are arranged in a grid-like fashion, with some diagrams having additional markings like dots or bars above or below them.

Ato

Chemical structure of 1,3,5-trisubstituted benzene with substituents H, OH, and H₂O. The structure shows a benzene ring with three substituents at the 1, 3, and 5 positions. The substituents are H, OH, and H₂O, represented by circles with internal patterns. The H substituent is at the 1 position, the OH substituent is at the 3 position, and the H₂O substituent is at the 5 position. The H₂O substituent is shown with two lone pairs of electrons on the oxygen atom.

A complex knot diagram consisting of a sequence of crossings and circular components. The diagram starts with a crossing, followed by a circle containing a vertical line with three small circles. This is followed by another crossing, then a circle with a vertical line and three small circles, and so on. The sequence continues with crossings and circles, ending with a crossing and a circle with a vertical line and three small circles. There are two double bars (≡) above the diagram, one above the third circle and one above the eighth circle.

A sequence of 11 symbols from the 'H' and 'O' series, including variations with horizontal and vertical strokes, and a lowercase 'e'.

$$\text{H}\text{O}\text{H}\overset{\cdot}{\text{e}}\text{H}\text{O}\text{H}\text{O}\text{H}\text{O}\overset{\cdot}{\text{e}}\text{H}\text{O}$$

A complex knot diagram consisting of a single continuous loop. The diagram features several crossings and a central dot. The crossings are arranged in a way that suggests a specific topological structure, possibly a braid or a link. The central dot is located in the middle of the loop, and the overall shape is somewhat rectangular with rounded corners.

$$H \oplus H \oplus H \oplus H \oplus H \oplus H \oplus d \oplus H \oplus H \oplus H \oplus H \oplus d \oplus H \oplus H \oplus H$$
$$\text{H} \ominus \text{H} \oplus \text{H} \ominus \text{H} \oplus \text{H} \ominus \text{H} \oplus \text{H} \ominus \text{H} \oplus \text{H} \ominus \text{H} \oplus \text{H}$$

A complex knot diagram consisting of several vertical strands connected by horizontal crossings and loops.

Diagram illustrating the word "HOHO" written using different combinations of uppercase and lowercase letters and circles. The first example shows "HOHO" with all letters in uppercase. The second example shows "HOHO" with the first 'H' and 'O' in uppercase and the second 'H' and 'O' in lowercase. The third example shows "HOHO" with the first 'H' and 'O' in uppercase and the second 'H' and 'O' in lowercase, with the second 'O' replaced by a circle.
